Distribute Stock.

There is a growing disposition on the exchange to credit the sustained movement in some of the minor stocks to a desire to give tone to the list in order that the clique that has been bulling the market for three months might distribute some of their surplus stock with profit: in fact, that during the entire profit: in fact, that during the entire seeks a lower level as the campaign and the cam sary to prevent the bottom dropping out of the market and to retain control of the situation.

That they have bought back much of their stock is perhaps true, and that the position of the market is better through lowers is also probable but the elimination of a bunch of weak followers is also probable but the still block.

Public Indifferent.

public indifference continues. There is no demand for investment, nor trading element is of the room trader variety, in and out, and back again, with the varying fluctuations, overcautious just at present, and looking for scalping profits rather than a long pull. So far as influences were concerned that might be expected to cause the declines in the leaders this morning, there were none, at least none in sight. Stocks were steadled and boosted yesterday on politics. Certainly there has been no material change in the political outlook in the last twelve hours.

than we have information of. The spurt of these shares yesterday was premature, judged by their action this morning, for Northern Pacific dropped from 137½ to 135½ and railied but ½ point. Great Northern from 139% to 138%, equally without recovery. Reading was soft, breaking from 128½ to 127, a loss of 2½ points, with a ½ recovery. Reading was also very active. St. Paul was soft at 1½ loss. Southern Pacific ½ lower and Union Pacific nearly % off. Rock Island issues were lower on the theory that yesterday's spurt was nothing but a bit of private work in the boosting direction by Dan Reed. Smelter, Copper, Steels, and most of the industrials were slightly lower, but the losses other than in the rails were the losses other than in the rails were
